

JAMES HYATT

Computer Programming Graduate

PROFESSIONAL SUMMARY

Recent graduate with an Associate Degree in Computer Programming from Trident Technical College (April 2024), seeking an entry-level programming position to contribute technical expertise and problem-solving skills to software development projects. Experienced in Agile Scrum development, team collaboration, and using GitHub for code management. Developed a scheduling web application for a physical therapy business as a senior project, utilizing PHP, HTML, CSS, JavaScript (including AJAX), and RESTful APIs. Strong foundation in Java programming through three semesters of coursework and proficient in CRUD operations and database interactions. Dedicated to learning and growing in the field of software development while delivering innovative solutions.
